PROFESSIONAL SUMMARY

Software Engineer with 5 years of experience building scalable mobile and backend applications using Flutter, Dart, Node.js, Express, and MongoDB. Strong expertise in designing REST APIs, implementing RBAC-based systems, and optimizing application performance. Proven track record of improving system efficiency, reducing latency, and delivering production-grade applications. Experienced with modern development workflows using Git, GitHub, and version control, along with building AI-powered agents to automate development processes.

CORE COMPETENCIES

Languages	Dart, JavaScript (ES6+), TypeScript, SQL
Mobile Development	Flutter (Android & iOS), State Management, API Integration
Backend Development	Node.js, Express.js, REST APIs, Authentication, RBAC
Frontend	React, Angular
Databases	MongoDB, SQL Server
Version Control	Git, GitHub, Branching Strategies, Code Reviews
Tools & Workflow	Postman, Swagger, Jira, Agile Development
AI & Automation	AI Agents, OpenHands, Cursor (AI-assisted development)
Infrastructure	Docker, Supabase (Local), WSL (Ubuntu)

PRODUCT EXPERIENCE

DoshaheenNOV 2023 - APR 2024 Software Developer

- Developed scalable backend services using Node.js, Express, and MongoDB supporting **10K+ users**.
- Built secure REST APIs with RBAC, reducing unauthorized access issues by **35%**.
- Implemented audit trails and document versioning, improving compliance workflows by **50%**.
- Optimized API performance, reducing response time by **25%**.
- Developed React dashboards improving internal team productivity by **30%**.

DentalDostOCT 2020 - JUL 2021 Software Developer

- Built backend APIs using Node.js and Express handling **5K+ daily requests**.
- Developed Flutter mobile applications used by **8K+ users**.
- Improved API performance by **30%** through query optimization.
- Implemented role-based access control for secure healthcare workflows.

SERVICE EXPERIENCE

ErgobiteDEC 2024 - JUNE 2025 Software Developer

- Developed backend systems for a real-time food delivery platform supporting **2K+ concurrent users**.
- Designed REST APIs for order lifecycle and delivery tracking.
- Implemented authentication and RBAC for multi-role access.
- Reduced system latency by **35%**.

ScriptLanesJUL 2021 - JUL 2023 Software Developer

- Built backend services using Node.js and ASP.NET Core.
- Developed Flutter and Angular applications.
- Improved system performance by **40%**.
- Reduced delivery timelines by **25%**.

PROJECTS

AI Development Agent — Jira to PR Automation

- Built an AI-powered agent that converts Jira epics into project codebases.
- Automated pull request generation, reducing development effort by **60%**.
- Used OpenHands CLI with Ubuntu (WSL).
- Accelerated development workflows using AI-assisted coding tools.

Local Supabase Setup using Docker

- Configured Supabase locally using Docker.
- Reduced environment setup time by **70%**.
- Improved development speed and debugging workflows.

EDUCATION

Pune University	Pune, India
Bachelor of Engineering – Computer Science	

CERTIFICATIONS

Explore ML Facilitator — Google AI	Feb 2020
Front-End Developer Professional — Meta	Jan 2023
